APPOINTMENT & PREPARATION

Some examinations require special preparation.
Please ask when making your appointment.

Time: _____

Date: _____

Preparation: _____

Your doctor has recommended that you use Allcare Gynaecology because we specialise in pelvic ultrasound. You may choose another provider but please discuss this with your doctor first.

Please come with a comfortably full bladder. Sometimes a transvaginal examination will be recommended to obtain better images. It would only be performed with your consent and after you have emptied your bladder completely.

Information for patients about each procedure can be found at: www.allcaregynaecology.com.au
